This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE.

THE only Concordance to Milton's Poetical Works that has yet appeared is that by the late Mr. Guy Lushington Prendergast of the Madras Civil Service, published at Madras in 1857. The edition was small, and it has long been out of print. Unfortunately, too, the editing seems to have been left to the printers, who apparently cut off from either end of a quotation such words as would not fit into a line of the *Concordance*, thus rendering it necessary for one consulting the work to refer in most cases to the passage in Milton; there are also many errors in it owing to the fact that to copyists as well as to compositors English was a foreign language.

In 1867 Mr. C. D. Cleveland, of Philadelphia, published in England a small work entitled "A Complete Concordance to the Poetical Works of John Milton" (London, Sampson Low), but it was merely a verbal index, a first edition of which had appeared in Cleveland's edition of Milton's Poetical Works, published in America in 1854. Previous to this there was Todd's Verbal Index, appended to his edition of Milton's Poetical Works in 1809; but in it, according to Cleveland, there are over three thousand mistakes.

In the present *Concordance* I have followed the text of the new Aldine Edition of Milton's Poetical Works, edited by me this year for Messrs. George Bell & Sons, which was carefully revised from my edition of Milton's Poetical Works, published by W. H. Allen & Co. in 1877 and 1885.

It would be well if the spelling in the Poems were fixed, or more uniformity observed; words are spelled differently not only in different editions but even in the same edition; thus we have 'frenzy' and 'phrenzy', 'inactive' and 'unactive', 'inrolled' and 'enrolled', and other words beginning with 'in', 'en' etc., and in the same edition 'dropt' and 'dropped', 'swoln' and 'swollen', also some editors print as compounds words that others treat as separate words.

All the Poems are included in this *Concordance* except the *Psalms* and the Translations in the Prose works; and all the words are given with the exception of some of the pronouns, conjunctions, adverbs and prepositions; but any of these used peculiarly are given, and it is hoped that the present work will be found useful not only by the student of Milton but by the grammarian and the philologist.

I have to thank Major General Prendergast for supplying me with a copy of his father's *Concordance* and for allowing me to make use of it in the preparation of this; and to Mr. K. Deighton, M.A., late Principal of Agra College, my special thanks are due for kindly reading a portion of the proofs, as the printing of the work did not commence until I had left England.

MADRAS:
December 1893. JOHN BRADSHAW.

Since the lamented death of Dr. BRADSHAW in January 1894, the revision of the proofs has been kindly undertaken by his father, the Rev. W. H. BRADSHAW, A.M., Booterstown, Dublin.
